SSLC March 2011- Result Analysis**

**This day last year 27 May 2010 we had said in our SSLC March 2010 – Result Analysis**

"The school SSLC results are showing steady improvement. Please find supporting data below.

The school teachers have worked ceaselessly and share their happiness over the improvement with you. The students are seeing the value of committed sustained work and this has led to the overall improvement in school atmosphere and school culture. The students show more understanding and respect of teachers and parents who are increasingly supportive of the school's efforts. The parents are showing they are partners in this effort of bringing about positive changes in their own lives.

We are happy to say that the young people going out of school are being tracked and many of them are continuing to improve their skills and knowledge and getting themselves ready for livelihood when they become eligible for employment. Many are in college and many have found good employment with reputed firms and companies as well in social service NGOs. Quite a few have set up small businesses and show entrepreneurship and leadership in their own residential localities. They are committed to hard work, team work, supporting the weaker among them and have started helping the school and the pass out students through mentoring and monetary support".

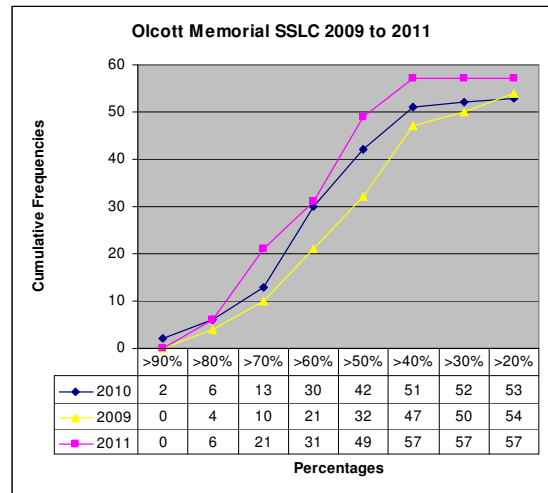

**This Year-**

**We wish to add that we are happy to be able to maintain our improvement in performance. Noteworthy is that, in 2008 we had set ourselves an evaluation matrix of reducing not only the number of failed students but also the total no. of failed slots. We have moved from 21 in 2009 to 9 in 2010 to 3 in 2011.**

**We have already got the ball rolling for these 3 children so that they can pass the exams in June 2011 (These are called Instant Exams in Tamilnadu)**

**We have a long way to go before we can achieve the levels of success that the top students in the boards have reached. We are no doubt "Better than yesterday but not as good as tomorrow" as one of our School Committee members said to us during his talks to our children**
